## Presented SmartStream TLM Corona

Karachi, March 24, 2014: AMFCO Group proudly Participated along with Smart Stream Technologies at CIO Summit 2014 to present its Award Winning TLM Solution “An Enterprise Reconciliations System”.

SmartStream is a global software provider that in challenging markets conditions has outpaced its rivals in the financial markets sector, creating an impressive base of more than 1,500 customers.

This includes more than 70 of the world’s top 100 banks alongside the world’s leading asset managers.

# Over 18 Years

of Experience in Technology Industries

Transaction Lifecycle Management (TLM®) is SmartStream’s trademarked approach to solving operational processing challenges by understanding the end-to-end transaction flow – from trade inception to settlement. Improved automation and visibility are delivered by independent operational controls and a systematic approach.

## Student Management System

The all-in– one Software to manage your educational institutes

AMFCO launched E-Student Management System ERP a complete student information system in cloud. Student ERP provides user-friendly dashboards with login access to all the teachers, non-teaching staff, students, parents and management body of your institution. The various modules available in Student ERP takes care of all the processes in your institution, right from admission of new students to generating transfer certificate, when the student completes the studies. Our motive is to provide an efficiency to the educational institutes, where we claim that you run Your Rules, Your Process in Your Premises the way you want.

*“very qualified team and excellent presentation, energetic, vibrant, sense of depth, mix of young and old team....highly impressed”*

## CEO Message

“Our experience across all industries enables us to harness the best ideas, practices and solutions from both the public and private sectors, for the benefit of every client. We are deeply committed, consistently inventive and determined to deliver. No job is too large for AMFCO, or too complex. Company has the skill to handle elaborate technical refinements one day, and the commitment to help you efficiently deliver a massive transformation of a project. We work as closely as possible with all of our customers. We challenge them to think beyond their current needs, looking for ways to improve their cost effectiveness through products and processes. We believe the customer needs have to be considered with every product we offer and they become an integral part of the thought process as we develop not just products, but total solutions. Our leadership is a result of our employees. They have made AMFCO one of the outstanding companies in our industry. Each of them brings diverse background and specialized disciplines to deliver the one thing that our customers want the most is - RESULTS “
